**JULY 30th 2001**

TO: Mr. Larry Cowan  
WDFW  
Olympia, WA

**SUBJECT :CASCADE FALLS FISHWAY CAPER THURSDAY--JULY,26 2001**

Once again, the STEELHEAD CLUB is pleased to be in the position as Chairpersons of the WDFW Accolade Awards Committee ( WDFWAAC )

Our visit to the facility was totally superlative on all counts :

--the fishway, as demonstrated ( brailed, trucked and flushed out at the dump site ) was carefully choreographed by the ebullient and totally effusive enthusiasm of Steve and Daryl--including an excellent dissertation on background history&technical briefing. (Fortunately, we were only 5 minutes away when final arrangements were made for the visit--thus , we trust, our interference in the hauling proceedure was minimal.)

We were all astonished at the size of the unclipped hummers actually in the brail at the time of our visit.

--our guest, Vice Chair Commissioner Roehl, was really thankful for the 2 day trip as it included :

- inspection visit to the fishway,
- side trip to the Reiter Ponds with ?# of adults in the holding facility,
- overnite stay at Hill's chalet at the junction of the No. and So. Forks of the SKY,
- a fish lost at the forks ( right in front of the chalet ) and member Al Hill put him on a 7 1/2 to 8 # female in the Canyon Hole on the No. Fork.

The entire programmed 2 day scenario could not have possibly worked out better!

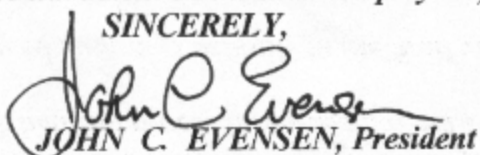

Again, our thanks for the tremendous support, cooperation and enormous enthusiasm of all WDFW personnel involved. ( UR really fortunate to have such enthusiastic employees )
